Our Services

Our services:

- 1 Facilitation and Dialogue Events**
We design, run, and report from interactive meetings, workshops, forums, retreats, and conferences. These bring diverse views into the room, inject creativity, generate insight, build consensus, and drive action.
- 2 Engagement Strategies and Processes**
Can't do it alone? We help you identify, connect, and collaborate with like-minded others to reach common goals. Working well together builds skills, trust, and momentum. Impact increases rapidly.
- 3 Team and Organizational Development**
Your team's internal capacity, alignment, and focus need ongoing attention. We strengthen these essential aspects of performance with proven tools for visioning, goal-setting, strategic plans, teamwork, leadership, culture change, and/or conflict resolution.
- 4 Education and Training**
We've delivered innovative adult education in workplaces and through university programs for 20+ years. We offer 10 customized training courses (online, in-person, or in hybrid format) that draw on our tools and experience.
- 5 Working Digitally or in Hybrid**
Collaborating effectively both online and in-person is now a requirement. Our toolkits and trainings (whether for national governments or local teams) help identify, adapt and deploy tools for this essential practice.
- 6 Project and Network Management**
When you need some additional capacity, our experienced team can partially or fully design, deliver, and evaluate any collaborative project or network. We also prepare funding applications, mid-point reviews, capacity assessments, etc.

Your needs:

Ambitious set of goals

Your vision and goals are needed and exciting. But traditional strategies won't suffice...a more powerful approach is needed.

Work as a team

You know that clarity of purpose, staff buy-in, empowerment, and collaboration are key. And want to act accordingly.

Open to partnerships

Whether you seek stepwise or transformational change, you need the perspectives and ideas of external voices to help you move ahead.

Ready to engage

Your reach might currently "exceed your grasp", but collaboration with others will change that. It's time to work with Engage For 2030.
